FOR IMMEDIATE RELEASE

**FLU SHOTS OFFERED BY AIRPORT URGENT CARE TO TRAVELERS AND LOCALS AT  
Phoenix Sky Harbor International Airport**  
*Quick, Convenient Airport Access to Illness Prevention Now Available for Flu Season*

PHOENIX—Flu season is quickly approaching and now travelers in and out of Phoenix Sky Harbor International Airport, along with Valley locals and airport employees, have a timely and convenient flu prevention option while on the go. The US CareWays Airport Urgent Care is now offering \$25 flu shots (FLUCELVAX QUADRIVALENT) at their walk-in urgent care that is open every day between 8 a.m.-8 p.m. in Terminal 4, Level 3 (pre-security, inside the Drugs & More retail store).

The Center for Disease Control (CDC) recommends annual influenza vaccination for everyone six months and older before flu begins spreading in your community. According to the CDC, “It takes about two weeks after vaccination for antibodies that protect against flu to develop in the body, so make plans to get vaccinated early in fall, by the end of October. Getting vaccinated later, however, can still be beneficial throughout flu season, even into January or later.” Children who need two doses of vaccine to be protected are encouraged to start the vaccination process sooner, because the two doses must be given at least four weeks apart. The US CareWays Airport Urgent Care is also offering the high-dose influenza vaccine (Fluad TIV) for \$65 to ages 65+ or those with health complications.

Our qualified, licensed medical professionals, who provide high-quality medical care for travelers, locals, and airport employees every day, are prepared to get people in and out quickly for their flu shots so they can continue on with their travels or work shifts and prevent illness from slowing them down.

**What:** \$25 Quick, Convenient Flu Shots Now Offered at the Airport Urgent Care

**When:** Between 8 a.m.-8 p.m. Every Day of the Year

**Where:** US CareWays Urgent Care at Phoenix Sky Harbor International Airport, Terminal 4, Level 3
